Who We are:

Majed Saleh Al-Ameri Gen. Cont. Est. (MAC) has an experience of over 15 years in a wide variety of contracting services and is committed to time limit and agreed BUDGET religiously for its each and every client. We extend these commitments throughout our entire operations.

We offer consultancy services in all stages of General Contracting & Trading, HVAC maintenance, installation & commissioning, Civil, Architectural, electromechanical works, steel fabrications, etc.

What do we do :

We offer both Clients & Contractors a complete Project Construction and Management package using professional and highly experienced project management team who are well experienced in their respective field to meet the requirements and challenges of the project, ensuring project delivery on time and within budget fulfilling the standards and expectations of our valuable clients.

Our aim is to provide a comprehensive service to our customers who will cover all aspects of network construction and maintenance, combined with quality and competitive pricing. We cover both large and small projects from a single day work to long term, turn-key contracts.

To facilitate our aim, we employ a range of skilled workforce that includes Highly skilled & Experienced Engineers (Civil, Mechanical, Electromechanical, Electrical), Draftsman, IT professionals, supervisors specialized in each of their respective fields, dedicated team of construction workers, fitters, electricians, cable jointers, Electromechanical, Electrical Testing & Commission engineers, backed by a wide range of installation and testing equipments.

Full construction and trading services (starting form ground zero) are provided by our highly Experienced Engineers and we offer complete care of your dream project using our highly skilled human resources and a wide range of latest equipments and preventive maintenance, trouble shooting, protection, testing and the maintenance of associated auxiliary equipment.

All construction projects, testing and commissioning, etc are well supported by a full report and relevant test sheets and we constantly strive to improve our business by facilitating our clients till the very end.
